

GRO Registration District Book

Cover Note

The District book can be used to assist in the tracing of registration events in England & Wales from the year 1837 onwards; providing a number / number & letter code for each registration district for a specific year set. This number / number & letter combination relates to a microfilm tape held by GRO where the corresponding districts' registration entries are housed and can be used when applying for a certificate as part of a quoted reference relating to a particular entry. The District Book also provides information on abolished districts and where those records are now held.

Districts that have been abolished prior to 1997 will none-the-less have a district number in the "1997 to 2001" column. This does not mean that the district has been re-established, only that the records from the historic district can now be found in the "new" district. For the location of these records, please refer to the '1997-2001 District List' on pages 32 & 33 of this document.

Numbers in the last column (1997-2001) that are prepended and appended with asterisks are not District Numbers, you should instead, refer to the "Abolished List" on page 31 of this document.
